

What is it for?

The All of Us groups are to give young people a chance to tell us what is happening in their education and whether it is meeting their needs, we want to hear what is going well as well as what they would like to change. The work they are doing also fits into the SEND improvement plan as any work undertaken by the groups is reported at the improvement plan working group 'Co-production and Engagement'. Young people's views will be seriously considered in any service development

Who is it for?

They are for any young people who have SEND whether they have an EHCP or not. Most young people who have attended are 11-21.

If you and the young people you work with would like to get involved please contact your local officer.
